Sources: HCFA/CMS-2082 Report series as reflected in following sections of this report:
 Payments from "Annual Expenditures for Medical Services by Type of Service and Category of Eligibility"
 Recipients from "Annual Unduplicated Recipients by Type of Medical Service and Age Group"

Notes:

- (1) Payments do not include cost settlements and other post payments which are not directly associated with particular claims.
- (2) Recipients are unduplicated within category of service but not between categories.
- (3) This report reflects service categories as redefined by HCFA/CMS in FY 1999.
- (4) This report is updated annually in August/September.
- (5) VaMMIS system modifications have forced substantial counting method changes for FY 2004. The apparent increase in data variability is not thought to be significantly correlated to any actual shifts in expenditure, utilization, or enrollment levels that may have occurred since FY 2003.
